

Redefining the standards
for electric propulsion

Torqueedo Cruise R

- Thrust equivalent to 9.9 HP petrol outboard (Cruise 4.0 R)
- Unparalleled efficiency caters for superior range
- Designed specifically for remote steering and remote throttle

Torqueedo Cruise R

Features

- High tech outboard with the highest overall efficiency on the market
- Superior range due to superior efficiency
- Thrust equivalent to 9.9 HP petrol outboard
- Lightweight due to latest technology
- Delivery includes motor, cable set and remote throttle control with integrated magnetic on/off switch and multi-function display (Battery charge, range, speed, current input power)

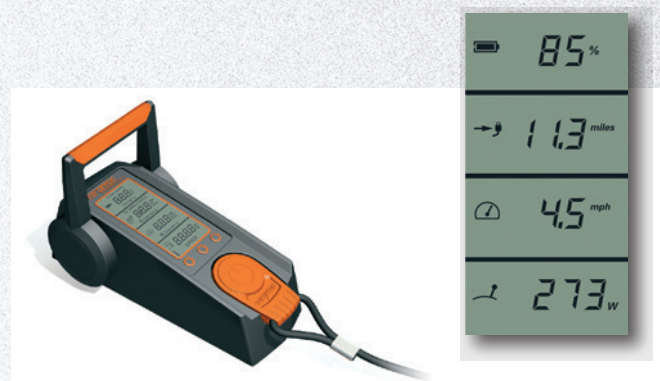

Applications

- Boats on green lakes
- Pontoon boaters
- Sailers / catamaran sailers
- Electric tenders
- Boaters preferring electric propulsion

Model: Cruise 4.0 R **Input power Watts:** 4,000 **Volts:** 48
Propulsive Power Watts: >1,800 **Maximum overall efficiency:** > 45 %
Prop size: 12" x 10" **Steering type:** Remote steering and remote throttle
Gearing: : F-N-R, continuously variable

Order Information

Model No.	Item	RRP (incl GST)
1209-00	Cruise 2.0 R	\$5,395
1211-00	Cruise 4.0 R	\$6,195
1901-00	Replacement propeller	\$170
